

Introducing EnumerationKind

An EnumerationKind that includes two other EnumerationKinds

One additional
valid value

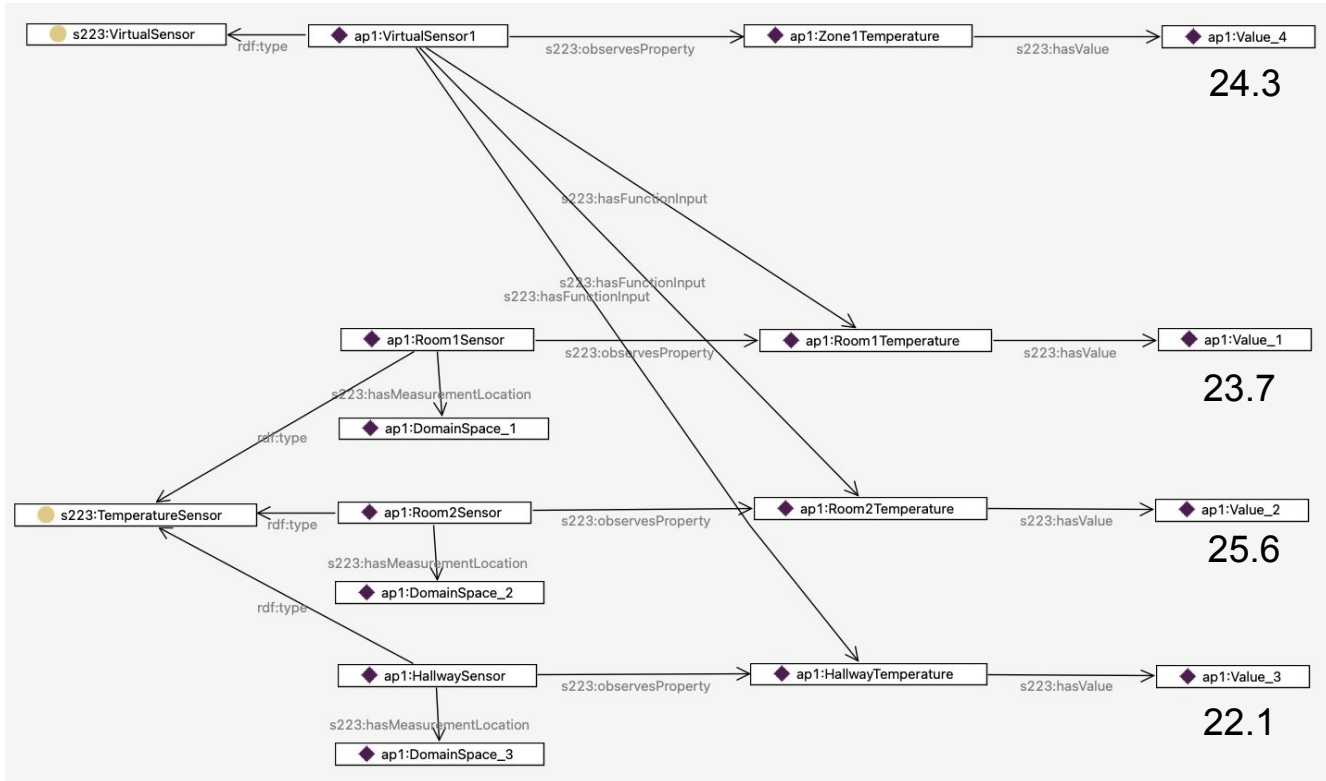

Two included
EnumerationKinds

Valid Values

The property **CleaningDay** has a Value of **Monday**, which is validated against the EnumerationKind **ValidCleaningDays**

Introducing VirtualSensor

VirtualSensor1 has no value for `s223:hasMeasurementLocation`. Instead, it has 3 values of `s223:hasFunctionInput` (pointing to Properties) whose values are combined in some way (out of 223 scope to say how), to produce a value for Zone1Temperature
